

A PASSION FOR SAILING THAT LIVES IN THE DESIGN

Ed Rutherford — Designer & Founder

Drawings are then produced to reflect the design changes and the equipment specifications are fine-tuned. The process remains dynamic and open throughout the construction of the boat. Through exploration of new ideas combined with the tried and true, the next evolution of a Waterline is born. Our commitment to this approach assures our customers great satisfaction with their investment, from concept to sail-away.

F

rom its beginning in 1982, Waterline Yachts has been dedicated to the design and construction of the finest steel sail and motor yachts. A philosophy of constant improvement complemented by the evolution of design and building technique form the foundation on which each boat is built.

Building a Waterline Yacht is a collaboration of an owner's inspiration and ideas, the designer's creative interpretations, and the builder's fine execution. The process begins with a time for discussion of features, large and small, that makes the boat unique and special for each owner.

WATERLINE 55

LOD	55'
LWL	48'4"
D/L	200
Beam	14'9"
Draft	6'9"
Displacement	50000 lbs.
Ballast	14000 lbs.
Sail Area	1500 sq. ft.
SA/Displacement	16
Fuel	250 gal.
Water	200 gal.

*S*heer elegance is the best way to describe the Waterline 55. The exquisitely styled three cabin layout is light and spacious.

The 55 is a perfect boat for a family to live aboard and explore the oceans of the world. With a comfortable 225 mile a day pace, passage making can be swift and

exhilarating. Utilization of in-boom furling for the main and single-line control for the staysail make handling the 55 in rough weather uncomplicated. Tacking is as simple as turning the wheel.

Ultimate strength and elegance combine to make the Waterline 55 a perfect family world voyager.
